Close the Achievement Gap With Upgrade Online Courses!

NEW! Turn Math Failure into Success

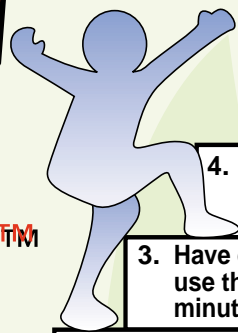

Intervention for Struggling Readers

Strategies for Reading Textbooks and Literature

Title I, English Learners, Special Needs, After School
Middle School, High School, Adult Literacy Grades 3 to Adult

MATH upgrade™

1. Identify students performing below grade level in math
2. Register online as a teacher and enroll each student
3. Have each student sign in and use the program for 30 to 60 minutes, 3 to 5 times per week
4. Track each student's progress using web-based reports
5. When a student reaches Level 60, print out a bronze certificate
6. Students repeat low-scoring lessons until all 60 lessons are 100%, for a gold certificate

Six Simple Steps to Math Success

A Complete Math Review In One Engaging Course

Arithmetic

Divide by the GCF to leave a fraction in its lowest terms.

Factors	Before	Divide	After
1, 3 <small>GCF</small>	$\frac{3}{6}$	$\frac{3 \div 3}{6 \div 3}$	$\frac{1}{2}$
1, 2, 3, 6			

Graphing

Identify (3 2)

Geometry

$2^4 = 2 \times 2 \times 2 \times 2 = 16$

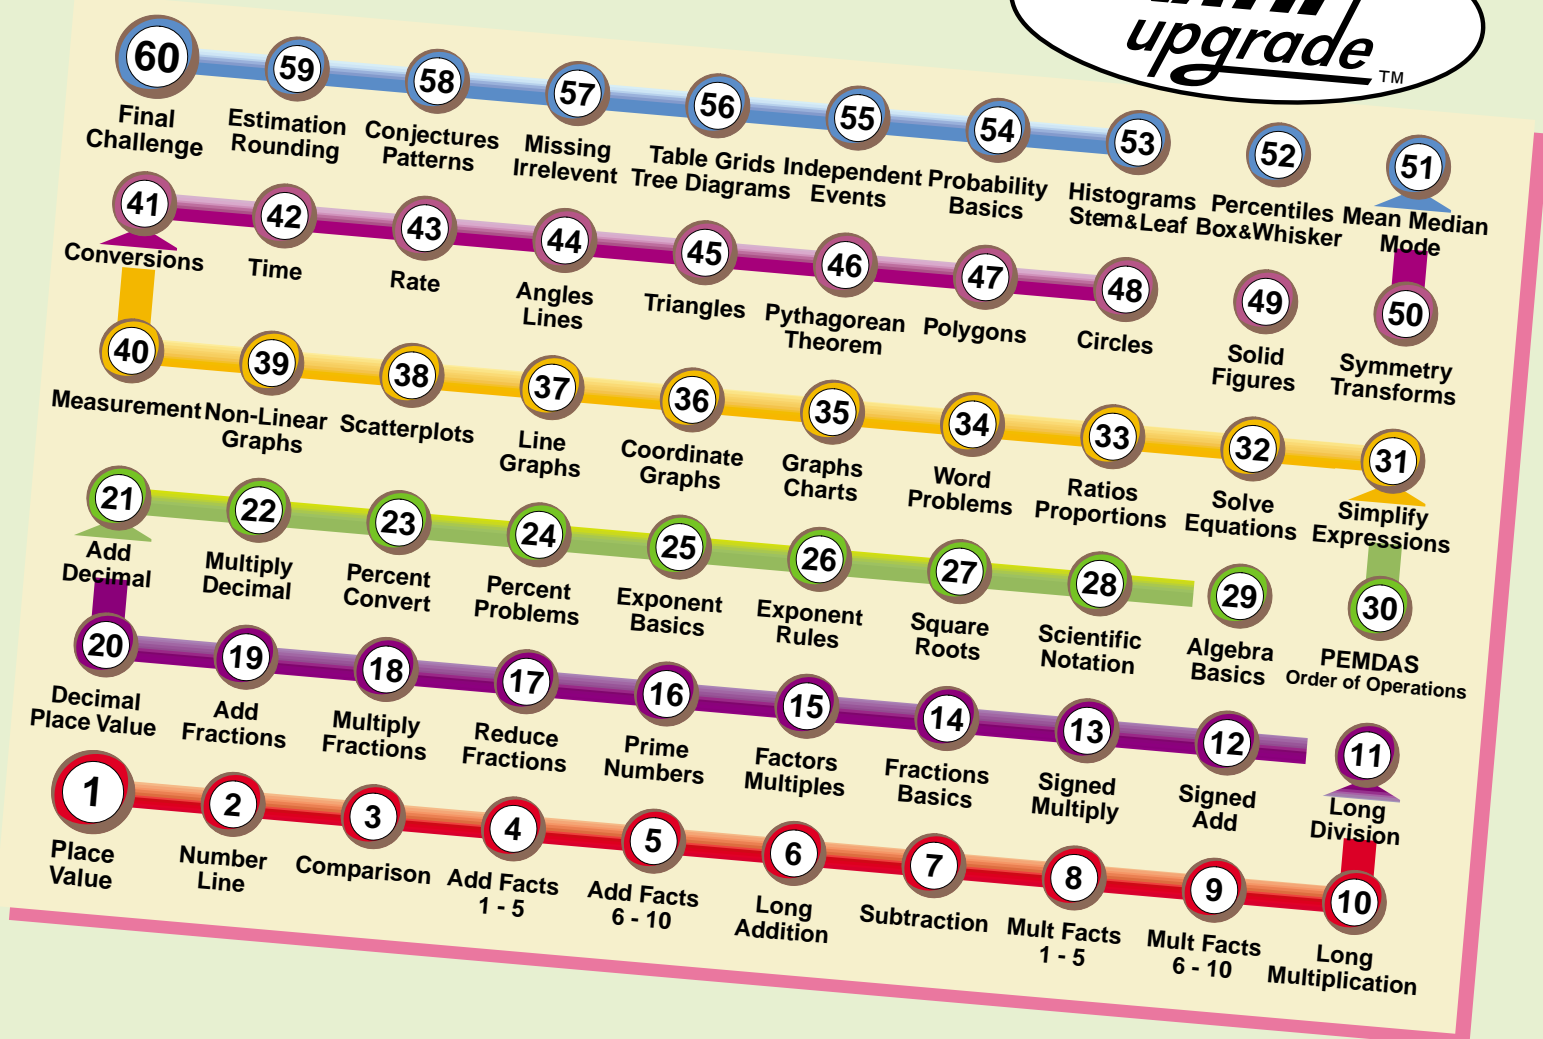

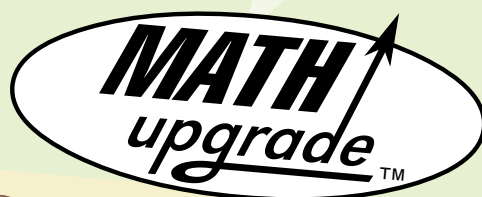

Pre-Algebra

Introducing Math Upgrade!

Math Upgrade is an online math review course that turns math failure into success. In just 8 to 12 weeks, students grades 5 to 12 and adult learners can master skills from basic math and arithmetic to pre-algebra, early geometry, statistics, and reasoning.

The high-interest step-by-step lessons are filled with engaging songs, instructional video, and practice games. Teachers can track student progress through detailed immediate assessment reports. Give your students a second chance at math success with Math Upgrade.

- Grades 5 to 12 & Adult
- Covers Math Grades 1 to 7+
- Teaches basic math, pre-algebra, early geometry, statistics, & reasoning
- Students complete lessons at any internet-connected computer at school or home
- Can be used in class, in a computer lab, after school, summer school, or at home
- Enroll your students in a FREE TRIAL today at www.learningupgrade.com!

Reading Upgrade is an online course that turns struggling readers into successful readers. In just 3 to 8 weeks, students grades 3 to 12 and adult learners can improve 1 to 2 grade levels and learn skills that will last a lifetime. Thanks to pop teaching songs, engaging learning videos, and exciting reading games, students actually enjoy completing a rigorous, research-based curriculum. With Reading Upgrade you can give every student at your site a chance for reading success.

- Grades 3 to 12 & Adult
- Reading Level Below Grade 5
- Teaches Phonics, Word Decoding, Basic Comprehension

Put This Course To Work At Your Site!

Title I / At Risk: Rapidly convert students into successful readers with in-class, pullout, after school, and summer interventions.

Special Needs / LD: Put Reading Upgrade and Comprehension Upgrade into a student's IEP for self-paced instruction to overcome reading disabilities.

ESL / LEP: Rapidly teach students to read and understand English with lessons they will enjoy and a curriculum that meets state standards.

Middle / High School: In just one semester, students can complete both the Reading Upgrade course and the new Comprehension Upgrade course, with 1 to 3 years of reading growth.

Adult Literacy: The Reading Upgrade and Comprehension Upgrade courses give adult struggling readers a fast and enjoyable path to literacy.

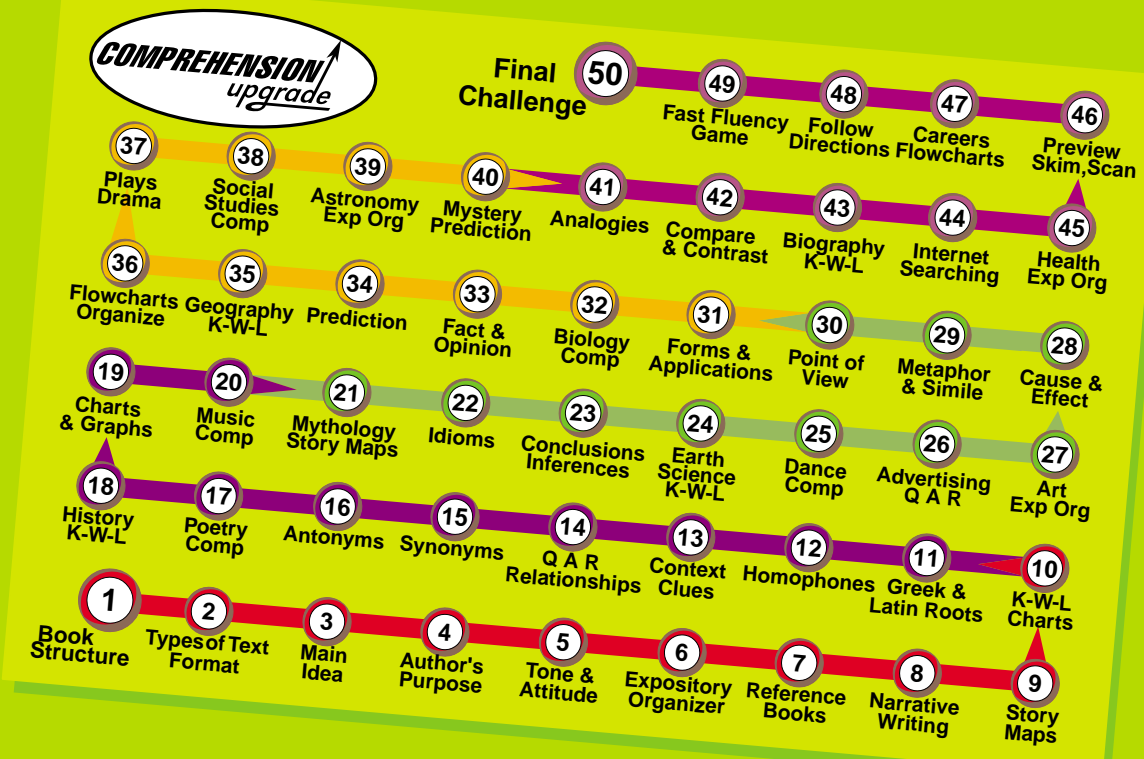

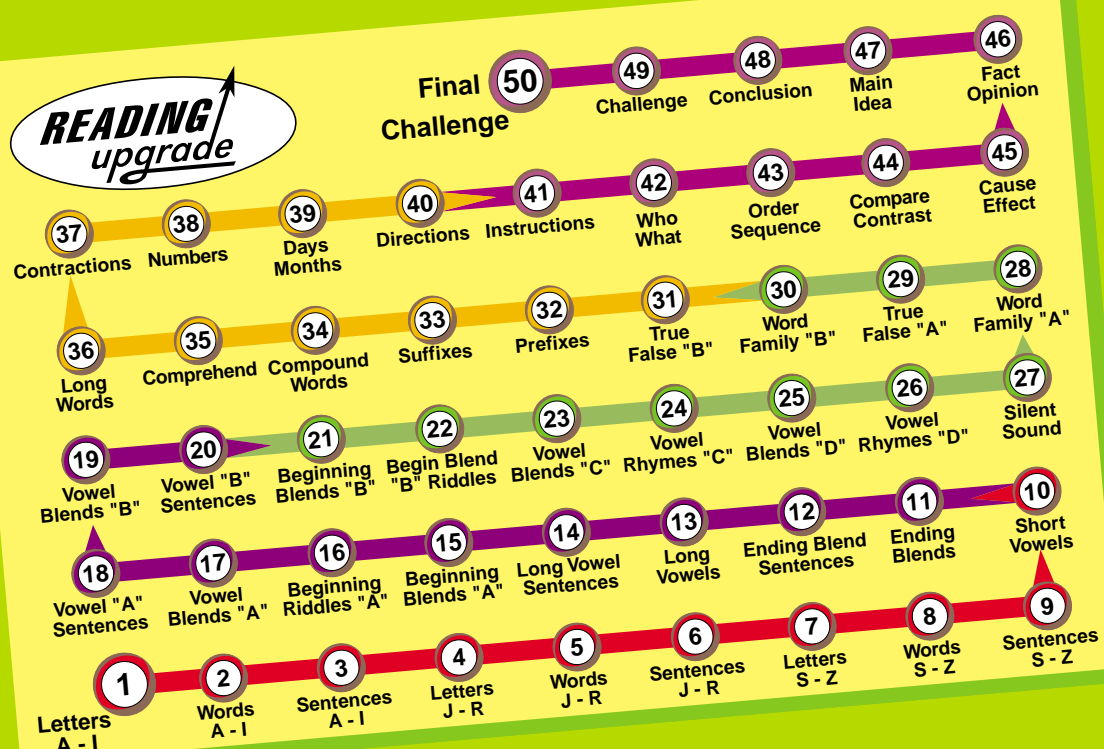

Comprehension Upgrade is an online course for students who can read but need to improve their comprehension to succeed in school. In just 6 to 8 weeks, students grades 5 to 12 and adult learners can learn modern comprehension techniques, improve their vocabulary, and develop critical thinking skills. Thanks to pop teaching songs, engaging learning videos, and exciting reading games, students actually enjoy completing this rigorous curriculum. Students read over 300 passages including expository textbook articles and literature. With Comprehension Upgrade, your students can learn to read and understand a wide variety of text.

- Grades 5 to 12 & Adult
- Reading Level Grade 5 or Above
- Teaches Comprehension Strategies, Critical Thinking, Vocabulary

Six Steps to Reading Success:

1. Identify struggling readers reading below grade level.
2. Register online as a teacher and enroll each student.
3. Have each student sign in and use the program for 30 to 60 minutes, 3 to 5 times per week.
4. Track each student's progress and print out results.
5. When students reach Lesson 50, typically in 6 to 8 weeks, print out a bronze certificate for each student to take home.
6. Students review low-scoring lessons for mastery to earn a silver and gold certificate.

A Proven Solution For At Risk Students

Research Tested

Independent studies at universities and schools have confirmed that the Upgrade courses deliver measurable gains in student performance over a period of 8 to 12 weeks. These include controlled university studies using public school students. Trials have included special needs students, English learners, and adults. Details of these studies are available on our web site.

Standards and Research Based

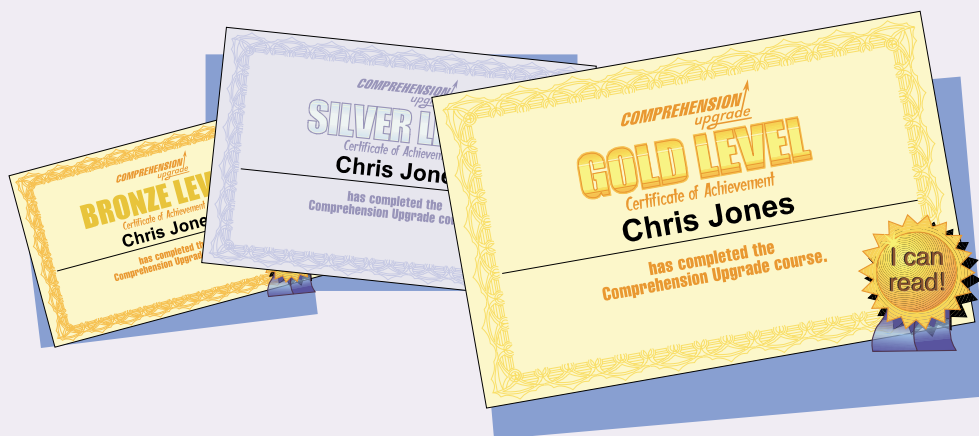

The Upgrade courses are based on the National Reading Panel April 2000 recommendations for research-based reading instruction, as well as NTCM and state math standards. The courses meet NCLB requirements for reading instruction, and are aligned to a number of state standards. Please visit our web site for details.

Over 25,000 students enrolled!

More than 1,000 schools have enrolled students in the Upgrade courses over the past six years. The courses have been used in a variety of settings, including in-school, after school, and summer school programs. The courses have also been used by public libraries, adult schools, alternative schools, community centers, correctional facilities, workplace literacy and job corps programs. Students can even complete lessons at home using home computers, with web-based teacher tracking of progress.

Students Achieve Mastery With Gold Certificates

Students complete each of the lessons in the Upgrade courses in order. When a student completes the course, he or she receives a Bronze certificate. The student must then review every lesson below a 90% score. Once every lesson is above 90%, the student receives a silver certificate. At the 95% level, students receive a gold certificate. This process motivates students to reach increasing levels of mastery in reading.

Detailed Web-based Student Tracking

Teachers can log in from any web browser and track the current progress of each student through a general class and detailed student reports. The reports contain scores on each of the course lessons, aggregate scores, dates and times of completion, and total time-on-task. In addition, principals and staff can track the progress of multiple teachers and students using web-based administrative reports.

Student Summary Report

SMITH, BRITTANY - Math Upgrade

Teacher	Jones, M	Class	PERIOD 6
Date Started	08/15/2006 2:38:53 PM	Last Played	10/25/2006 3:06:40 PM
Level	61 Bronze Cert	Average Score	85
Time Played	22.4 hours		

Subject Area Scores	Avg Score
Numbers/Arithmetic 1 to 13	92
Fractions/Decimals/Percents 14 to 24	84
Exponents 25 to 28	81
Algebra/Graphing 29 to 39	78
Geometry/Measurement 40 to 50	83
Probability/Statistics/Reasoning 51 to 59	88

Instruction At School And At Home

Teachers can give students a home password so they can complete lessons on their home computers. This maximizes school time while utilizing home time for valuable instruction. Teachers can track student progress on every lesson, including the score and the time completed. This feature has been used extensively by special needs teachers and adult literacy centers.

Pricing & Ordering Information

Pricing: \$99.95 per student per course, for one year of unlimited use

This price per student per course is for U.S. Schools and Educational Institutions for 2006.

Purchasing Learning Upgrade Courses

Schools purchase sets of Learning Upgrade courses, with one course per student requiring instruction. The courses are "mix and match", so a school can purchase 20 courses and later use 10 for Reading Upgrade, 5 for Comprehension Upgrade, and 5 for Math Upgrade, for example.

Once Learning Upgrade receives a school purchase order by fax or mail, we will send a Teacher's Guide(s) and a list of course codes to the school or district. Each course code can be used by a teacher to enroll one student in one of the courses. Teachers use a web-based Teacher Menu to enroll students and track their progress. Each student can use the course for one full year (12 months) from the time of enrollment, and can review the lessons as many times as necessary. We typically ship the materials within one business day of receipt of an order, so teachers can begin using the courses with students within days of ordering.

For reading intervention programs, students reading at a basic level will start on Reading Upgrade. After mastering the course lessons, these students can move on to Comprehension Upgrade. This requires two courses total per student. Students who read at grade 5 or above can start directly on Comprehension Upgrade.

Preparing School Purchase Orders

Please use the following information to prepare school purchase orders, which can be sent by mail or fax:

Vendor: **Learning Upgrade LLC**

Address: **2034 Ridgecrest Place
Escondido CA 92029 USA**

Phone: (800) 998-8864 Fax: (858) 653-4677

Product Name: Learning Upgrade Online Courses

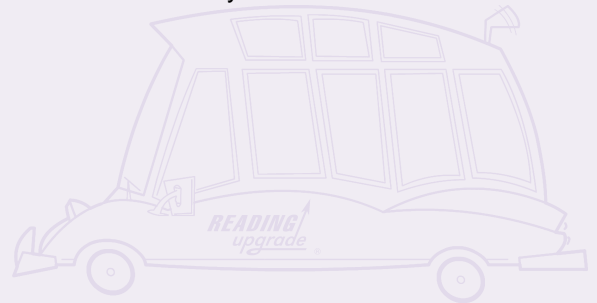

Product Number: 01001

Shipping: **FREE**

Sales Tax: No sales tax, this is an educational service.

Please specify a lead teacher contact with phone and email so that we may provide quality customer service. Please specify the number of teachers and courses per teacher so that we can prepare individual Teacher's Guides for each teacher.
